
Girls Hackathon Project

Training for Trainers Conference
presented by ZAMWILL

18-19 January 2023

American Corner on the CBU Campus

Welcome to ZAMWILL

Founded in 2015, the Zambian Women's Institute for Learning and Leadership has been devoted to building the next generation of empowered, highly-skilled, innovative, and assertive girls and young women to create a better tomorrow.

WHO WE ARE

We are the nonprofit
women-led organization
known as Zambia Women
Institute for Leadership and
Learning

WHAT WE DO

Our women-led organization aims to **EMPOWER** girls and young women with innovation, entrepreneurship, and leadership skills through our mentoring and training programme.

Objectives

Participants will leave the workshop with strategies/tools for creating a more student-centered learning environment that builds student confidence;

Participants will understand and state the purpose of a hackathon and the ZAMWILL Girls' Hackathon Project

Participants will feel supported, connected, and appreciated for what they bring to the meeting and project.

We're host a HACKATHON

A competition in innovation to bring people together to solve issues facing their communities.

Participants called “hackers” work together in teams on a specific challenge with a goal to create new solutions.

Ready, Set, DESIGN!!!

Select a bag read the card and design a solution to the challenge using only the materials in the bag to create a prototype in 15 minutes before presenting to the group.

→ **Imagination**

Seeing the impossible or unreal

→ **Creativity**

Using imagination to unleash the potential of existing ideas to create new ones

→ **Innovation**

Practice of developing new ideas based on imagination and creativity

What is design thinking?

How design thinking can help you transform the way you develop products, services, processes, and organizations.

Dalitso Kasonde

TEA BREAK

A digital clock display showing the time 9:56. The numbers are white on a black background. A large, bright green semi-circle is positioned behind the numbers, partially obscuring them. The clock is set against a black rectangular background, which is itself set against a larger orange background.

9:56

Media Hour! Own Your Story.

(With a little help from your
smartphone)

Phiri

LUNCH

60:00

A video player interface is shown. The video content displays a sky with large, fluffy clouds, some of which are illuminated with a warm, orange-pink light, suggesting a sunset or sunrise. The video is framed by black bars at the top and bottom. A large, white, digital-style timer with a black outline is centered over the video, showing '60:00'.

ZAMWILL School

By the end of this session, you will set up your ZAMWILL School Profile and have access to assignments and resources for the hackathon

→ What

Our Learning Management System will allow us to collaborate no matter where we are.

→ Who

Teachers-share resources with each other and students

Students can communicate with each other, teachers, and mentors

Tonight's Homework

Part 1: Using the skills you learned during the *Media Hour with Chibangu* take **3-5 photos** that best tell a story about you. Then upload your photos in your school's folder in the Gallery (you complete this during breakfast, break or lunch on Thursday). You will need the photos for the Story Maps session on Thursday.

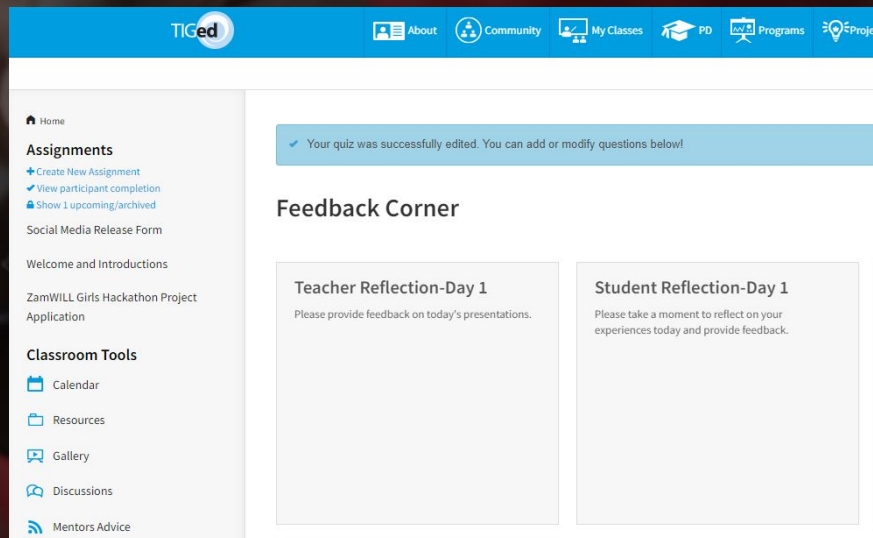

Part 2: go to www.storymaps.com and create a free account.

Reflection and Evaluation

In the ZAMWILL Classroom, go to the Feedback Corner and complete today's survey

Tip

Reflection is one of the most underused yet power tools for success.
-Richard Carlson

The screenshot displays the TIGed website interface. The top navigation bar is blue with the TIGed logo and links for About, Community, My Classes, PD, Programs, and Projects. The left sidebar contains a Home link and sections for Assignments (with links to Create New Assignment, View participant completion, and Show 1 upcoming/archived), Social Media Release Form, Welcome and Introductions, ZAMWILL Girls Hackathon Project Application, Classroom Tools (with links to Calendar, Resources, Gallery, Discussions, and Mentors Advice), and a Feedback Corner section. The main content area features a blue notification bar stating "Your quiz was successfully edited. You can add or modify questions below!". Below this is the Feedback Corner section, which includes two reflection prompts: "Teacher Reflection-Day 1" (Please provide feedback on today's presentations.) and "Student Reflection-Day 1" (Please take a moment to reflect on your experiences today and provide feedback.).

Welcome Back!

Day 2 will be filled with more hands-on, minds-on activities to prepare you for HACKATHON success.

THE ULTIMATE FOUNDERS MANUAL FOR STARTUP SUCCESS

START FINISH

Manual for Building a Business
That Leads to an Extraordinary Life

Aaron Mashano

Business Innovation and Social Entrepreneurship

Meet Aaron Mashano. Aaron has founded numerous startups before finding success. He believes anybody can achieve if they put their minds and a lot of effort into it.

TEA BREAK

10 Reason Students Should Learn Coding

1. Allows students to create content, not just consume it
2. Empowers students with tools to express themselves in new and cool ways
3. Teaches storytelling
4. Provides a safe place to take risks and fail
5. Builds self-confidence
6. Supports many principles of mathematics
7. Teaches problem solving skills
8. Coding is a new type of literacy
9. Develops collaborative relationships
10. Coding can help humanity

Computational Thinking

Allows us to take a complex problem, understand what the problem is and develop possible solutions. We can then present these solutions in a way that a computer and a human can understand.

LUNCH

Cups Stacking

Leadership and Teamwork

CUP Stacking Challenge Discussion

- "Was anyone frustrated during this activity? How was that frustration handled?"
 - "What did you learn about yourself and the group you worked with?"
 - "Why was teamwork so important in this activity?"
 - "What other skills did your group have to use to complete this activity?"
 - "What was hard about teamwork? Communication?"
 - "What real world situations have you been in where you needed to use good teamworking skills? How did you handle that situation?"
-

Everyone is a storyteller.

The Art of Telling Your Story

Meet Elizabeth Cotton-Harps. Elizabeth is the executive director of Black Tech Link. We'll let her tell her story.

Elizabeth Cotton-Harps

Our Hackathon Challenge

The theme of the ZAMWILL Girls Hackathon Project is **SOCIAL GOOD**. Today, you've begun laying the foundation for the hackathon. And between now and March your task is to create a team of girls to solve a problem facing your community in one of the following challenge areas:

- Clean Energy
- Smart Cities
- Education and Technology
- Biodiversity and the Green Economy
- Agriculture and Food Systems
- Transportation
- Health

Closing

We hope you're feeling confident around your product or idea for the hackathon:

→ **Timeline**

What has been accomplished and what might be left to tackle?

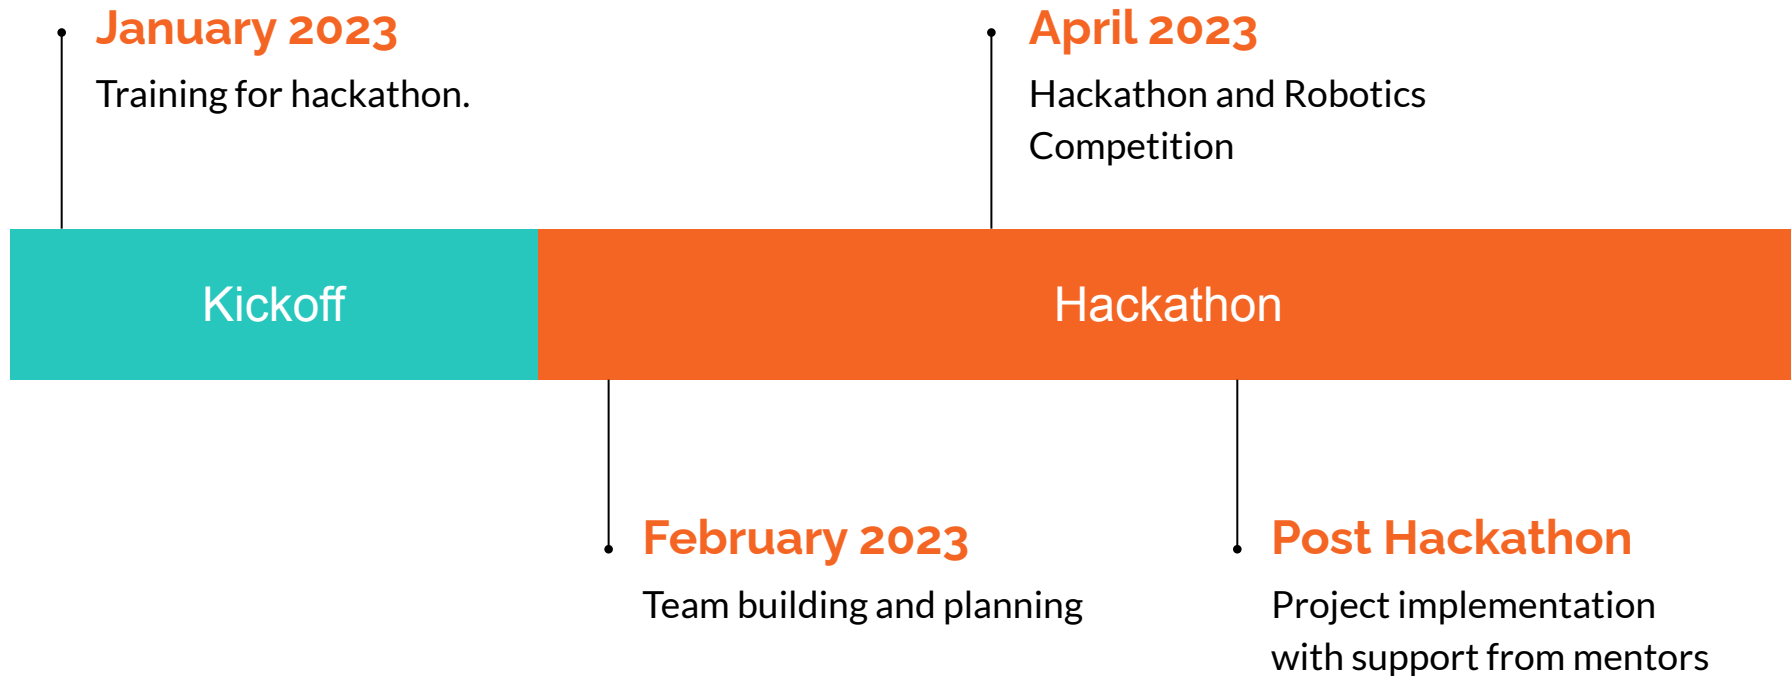

→ **Testimonials**

What are people saying about the hackathon?

→ **What's next?**

Reflection and planning

Timeline

What people are saying

**I feel like its an
opportunity to
learn more about
the things
happening... around
the world.**

Lubutoteam

**We can't wait to
learn more cause
it is so fun**

Parklands School

**With all the
available tools
and resources we
do feel
supported.**

Ndeke School

Our HACKATHON

We're inviting 110 girls from 5 Ndola and 6 Kitwe Secondary Schools to “hack” their communities most urgent problems addressing:

- clean energy
- smart cities
- education and ICT
- green economy
- food systems
- transportation
- health
- digital solutions

Good luck!

We hope you'll use the information learnt to go out and deliver a memorable pitch for your product or service!

But remember you're not alone. You have tools at your fingertips and you're just a WhatsApp message away from support.

We're looking forward to March!

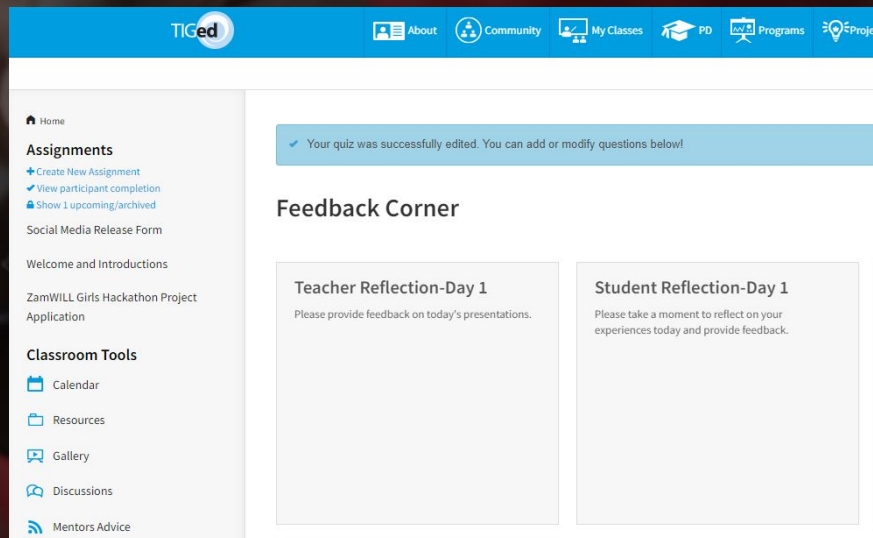

Reflection and Evaluation

In the ZAMWILL Classroom, go to the Feedback Corner and complete today's survey
